PLANNING GUIDE
EDITION 01 · MMXXVI

ERASMUS+ VET CONSULTANCY · TENERIFE · SPAIN · 28°N

Erasmus+ VET mobility in Tenerife.

Real work placements, vocational training and Canarian workplace culture — built around your funded action, your sector and your learners.

25+	4,200+	4h	5+
YEARS ON THE ISLAND	LEARNERS HOSTED	REPLY WITHIN FOUR WORKING HOURS	SECTORS WE WORK IN

WHAT WE DO

Three areas.
One Tenerife partner.

Mobility, vocational training and real work placements with Canarian employers — delivered on the island, built around your funded action.

AREA 01 · VET MOBILITY

VET Mobility

Cohort mobility for VET learners and staff. We work in connection with you on the area, the partner search and the on-island shape — so the mobility lands as real vocational work, not staged.

FOR VET PROVIDERS · APPRENTICESHIP NETWORKS

AREA 02 · VOCATIONAL ED & TRAINING

Vocational Education & Training

Sector-aligned vocational programmes — hospitality, sport, languages, creative industries, digital. Skills exchange, staff CPD and training outcomes mapped to your funded action.

FOR VET PROVIDERS · SECTOR SKILLS BODIES · ADULT-ED PROVIDERS

AREA 03 · WORK PLACEMENT & CULTURE

Work Placements & Culture

Real placements with Tenerife host employers — paired with Canarian workplace language, intercultural exposure and reflection. The substance of any VET mobility worth funding.

FOR VET COHORTS · APPRENTICES · ADULT LEARNERS

INCLUDED AS STANDARD

Safeguarding · Risk assessment · Reporting · KA1 / KA2 aligned

AT A GLANCE

What's in a Tenerife VET placement programme.

The shape and weight of each block is decided with your coordinator around your funded action, your sector and your cohort.

TARGET GROUP

Who you bring with you.

VET learners, apprentices and adult-education cohorts — plus staff CPD groups. We build the programme around the group you're funded to send.

PREPARATION

Briefed before they fly.

Pre-departure induction and a learning-agreement walk-through, so every learner lands knowing their placement, their goals and how the mobility is evidenced.

WORK PLACEMENT

Real Canarian host employers.

Sector-matched placements with Tenerife employers — real shifts, real workplace Spanish, and real vocational output for the learner's portfolio.

VOCATIONAL TRAINING

Training around the placement.

Structured sessions and mentor feedback alongside the work placement, mapped to your funded action and each learner's target competences.

LANGUAGE & CULTURE

Workplace Spanish, Canarian life.

Sector vocabulary and customer-facing language, paired with Canarian community and food culture — the intercultural substance funders look for.

OUTCOMES & REPORTING

Evidence ready for your funder.

Reflection, Europass-ready evidence, learner portfolios and an outputs pack you can attach straight to the final report.

ON THE GROUND, WE HANDLE

Hotel accommodation · Transfers · Vocational placements · Language & culture · On-island support

HOW WE WORK

Five steps, from first conversation to outcomes.

A clear path from enquiry to reporting. No mystery, no automated booking, no funding-guaranteed promises.

01

Enquiry & fit

You tell us your organisation, your funded action and your sector. We confirm fit within four working hours.

02

Programme design

A short call with your coordinator. We shape the placement, training and culture blocks around your area.

03

Application support

We help you map your mobility onto Erasmus+ KA1 or KA2 and write the application alongside you — host letter, programme outline, learning-agreement framing.

04

On-island delivery

Cohort arrives. Induction, host-employer placement, vocational training, language and culture, and on-the-ground support.

05

Outcomes & reporting

Reflection, Europass-ready evidence, learner portfolios and an outputs pack you can attach to the final report.

FUNDED WHERE IT FITS

The funding pays for the trip.
We handle the island.

We help you map your mobility onto Erasmus+ KA1 or KA2 and write the application alongside you. Funding sits with your national agency — **Léargas** in Ireland, your national agency elsewhere — so we'll tell you exactly what applies on the first call. Once you land, we manage everything on the ground.

A NOTE FOR UK-BASED ORGANISATIONS

Funded mobility routes continue to evolve. Eligibility depends on the current scheme position, timing and the specific action being applied under. We'll help you explore the most relevant pathway — institutional, private and emerging funded routes included.

PROJECT OUTCOMES

What learners take back
to evidence the mobility.

JOB-RELATED SKILLS & COMPETENCES

Vocational, observed in a real workplace.

- Sector-specific skill development at a Canarian host employer
- Observed practice, mentor feedback and supervised delivery
- Workplace Spanish — sector vocabulary, customer-facing language
- Industry standards and routines in a different national context
- Real vocational output — a project, piece of work or supported delivery
- Europass-ready evidence the learner can attach to a portfolio

ORGANISATIONAL & SOCIAL SKILLS

The transferable skills funders ask about.

- Independence, self-management and travelling outside the home country
- Teamwork in an unfamiliar cultural and linguistic setting
- Intercultural awareness, Canarian community life and food culture
- Communication across language barriers — workplace and social
- Reflective practice — structured outcomes capture across the programme
- A confidence shift you can describe to a parent, governor or funder

Hosting Experiences Tenerife

PLAN YOUR PROJECT

Plan your VET mobility project.

Tell us your organisation, your KA action, your sector and a sentence about your cohort. We'll come back within four working hours with a way to work alongside you on your Erasmus+ application.
